

INDEX

SUBJECT

AUTHOR

CONTENTS FOR VOLUME 86

Index of Subjects

Volume 86, 1977

- 2-AAF**
 - urogenital tumors from, 27a
- ABO blood group**
 - antigen expression on neoplastic cells, 69a
- Adenosine deaminase**
 - localization in frozen tissue sections, 79a
- Adrenal glands**
 - animal model of necrosis and infection, 749
- Adrenalectomy**
 - and syndrome from hepatotoxins, 80a
- Aflatoxin**
 - carcinogenic effects of, 475
- Age**
 - and immunologic functions of macrophages, 64a
 - and intracranial tumor induction with ASV, 67a
- Albers-Schönberg disease**
 - animal model of, 745
- Albumin**
 - synthesis in liver, 359
- Alcoholies**
 - gastrointestinal biopsies in, 82a
 - hepatitis in, and T and B cells in liver, 20a
- Aldosterone**
 - cytoplasmic receptors for, 717
 - serum levels in experimental toxemia of pregnancy, 573
- Alkenes**
 - thyroid necrosis from, 83a
- Alkylating agents**
 - coupling with steroid hormones, 725
- Allylamine**
 - myocardial necrosis from, 49a
- Aleveoli**
 - pulmonary (*see* lung)
- American Association of Pathologists**
 - goals and priorities of, 76a
- Amino acids**
 - in lung collagen, 86
 - in scar tissue, 55
- 4-Aminobiphenyl**
 - carcinogenic effects of, 475
- ϵ -Aminocaproic acid**
 - and DIC in pregnancy, 608
- Amniotic fluid**
 - infections of, 30a
- AMP, cyclic**
 - chemotactic effect on neutrophils, 246
 - and histamine release, 237
- and platelet function, prostaglandins affecting, 106
- Amyloidogenesis**
 - tissue culture studies of, 32a
 - vascular permeability affecting, 321
- Anaphylatoxins**
 - in complement fragments, 229
- Anaphylaxis**
 - slow-reacting substance of, 238
- Angiocardiography**
 - in cardiomyopathy in cat, 502
- Angiosarcoma**
 - from vinyl chloride, 469
- Animal Models of Human Disease**
 - adrenal infection and necrosis, 749
 - lead encephalopathy, 485
 - myocardial disease, 493
 - osteopetrosis, 745
 - osteosarcoma, 437
 - prostate adenocarcinoma, metastatic, 277
 - sporotrichosis, 281
 - thrombocytopenic states, 489
 - toxemia of pregnancy, 573
- Antibiotics**
 - and DIC in pregnancy, 607
- Anticoagulants**
 - and DIC in pregnancy, 606
- α_1 -Antitrypsin**
 - deficiency in emphysema, 242
- Aorta**
 - constriction of, and experimental toxemia of pregnancy, 573
 - endothelium of
 - in hypertension, 50a
 - regeneration after freezing, 133
 - growth regulators in, 32a
 - injury from arachidonic acid, 52a
 - oxidation derivatives of cholesterol affecting cells in, 53a
 - proliferating cells in thromboatherosclerotic lesions, 52a
- Arachidonic acid**
 - aortic injury from, 52a
- Arsenic compounds**
 - carcinogenic effects of, 475
- Arteritis**
 - necrotic, with hypertension, plasma protein levels in, 36a
- Asbestos**
 - carcinogenic effects of, 475
 - mesothelioma from, 469
- Aspergillosis**

allergic bronchopulmonary, 83a
Aspirin
and DIC in pregnancy, 608
maternal ingestion of, affecting fetus, 15a
and prostaglandin biosynthesis, 239
Astrocytosis
from methionine sulfoximine, 285
Atherosclerosis, 655
and cell proliferation in aortic thrombus, 52a
estrogen therapy affecting 700
fatty streaks in, 661, 668
mosaic composition of, 690
gelatinous lesion in, 669
lipid levels related to xanthomas in, 51a
plaques in, 50a, 657
fibrous-capped, clonal growth in, 53a
molecular interactions in, 665
monoclonal character of, 693
mosaicism in, 689
and response-to-injury hypothesis, 675
Auramine
carcinogenic effects of, 475
Autopsy data
for cancer studies, 471
BCG lesions
and tubercle bacilli in activated macrophages, 623
Beckwith-Wiedemann syndrome
neoplasms with, 3a
Benzene
carcinogenic effects of, 475
Benzidine
carcinogenic effects of, 475
Besnoitiosis
in hamsters, 749
Betel chewers
leukoplakia in, 472
Bile pigments
in neonates, 6a
Biliary tract
ligation of common duct, 301
pathology techniques for cancer studies, 466
Biopsies
brain, during 16 years, 58a
for cancer studies, 471
gastrointestinal, in alcoholics, 82a
Bladder tumors
from 2-AAF, 27a
pathology techniques for studies in, 466
Blood gas tests
interpretation of, 4a
Blood pressure (see also hypertension)
in cardiomyopathy in cat, 501
in experimental toxemia of pregnancy, 575

Blood vessels (see vasculature)
Bone
animal model of osteopetrosis, 745
marrow cells in liquid culture, 30a
osteosarcoma induction in rat, 437
pathology techniques for cancer studies, 466
Bradykinin
production of, 226
Brain
antiserum reactivity with lymphocytes, 1
biopsies during 16 years, 58a
capillaries in lead encephalopathy, 40a
in citrullinemia, 88a
experimental microemboli and infarcts, 41a
fetal
ependymal modifications in, 56a
neuronal migration in, after mercury poisoning, 55a
intraventricular hemorrhage in newborn, 85a
tumors of
cerebellar hamartoma with dense core granules, 58a
congenital, 54a
genetic control of growth in, 22a
hormonal manipulative therapy in, 720
pathology techniques for studies of, 466
Breast
G6PD activity in acinar epithelial cells, 123
heavy-ion mammography of, 70a
Bronchi
naphthalene-induced lesions of, 559
neuroendocrine cells in, 23a
Bronchiectasis
and bronchopulmonary dysplasia, 86a
Bronchioles
peribronchiolar ferruginous microbody in lungs, in hypertension, 61a
Burns
cultured skin epithelium for autografts in, 7a
Cadmium
immunosuppression from, 21a
Cadmium oxide
carcinogenic effects of, 475
Calcification
soft tissue, in dialysis patients, 403
striopallidodentate, in hidrotic ectodermal dysplasia, 34a
Calcium
tumors with hypercalcemia, 78a
Capillaries (see microvasculature)

- Carcinogen(s)**
 - affecting liver and lung D-T diaphorase, 28a
- Carcinogenesis**
 - environmental, and role of pathologist, 460
 - transplacental, 469, 478
- Carotid artery**
 - occlusion affecting, 42a
- Catecholamines**
 - macrophage binding to, 81a
- Cell volume regulation**
 - in myocardial ischemia, 44a
 - in renal ischemia, 46a
- Centrioles**
 - in neoplasia of endocrine glands, 66a
- Cerebellum**
 - hamartoma with dense core granules, 58a
- Chagas' disease**
 - cardiopathy in, 533
- Chalone**
 - granulocytic, 223
- Chediak-Higashi syndrome**
 - leukocytes in, 215
- Chemotaxis**
 - in acute inflammation, 204, 230
- Chemotherapy**
 - and steroid-cytotoxic agent coupling, 725
- Childhood disorders**
 - symposia on, 1a
- Cholesterol**
 - deposition in atherosclerosis, 670
 - oxidation derivatives affecting aortic cells, 53a
- Cholesterol- α -oxide**
 - and atherosclerosis, 699
- Choline deficiency**
 - and lymphocyte transformation, 69a
- Chromatin**
 - function of, 730
 - structure of, 727
- Chromium compounds**
 - carcinogenic effects of, 475
- Chymotrypsinogen**
 - activation in pancreatic insufficiency in mice, 31
- Cilia formation**
 - in neoplasia of endocrine glands, 66a
- Citrullinemia**
 - pathologic findings in, 88a
- Clara cells**
 - naphthalene affecting, 559
- Clotting system**
 - in acute inflammation, 232
- Coagulation**
 - disseminated intravascular, induced with progesterone in pregnancy, 603
- Cobalt**
 - and epilepsy induction, 41a
- Cocytotaxin**
 - and chemotaxis, 232
- Collagen**
 - alveolar fibers of, 81
 - in atherosclerotic plaques, 657
 - chemotactic effect of fragments on neutrophils, 246
 - polymorphism in hepatic injuries, 61a
 - in scars, 47
 - synthesis after biliary duct ligation, 301
- Colon (see intestines)**
- Colony-stimulating factor**
 - and granulopoiesis, 223
- Complement**
 - as mediator of inflammation, 227
 - receptor sites on glomerular capillary epithelial cells, 635
- Condylomata acuminata**
 - and G6PD mosaicism, 689
- Contraceptives**
 - oral, and tumor development, 470
- Copper**
 - fetal and neonatal metabolism of, 5a
- Coronary arteries**
 - atheromatous plaques in, 50a
 - in cardiac hypertrophy, 48a
 - necrosis in stillbirths and infants, 14a
- Corticosteroids**
 - and DIC in pregnancy, 608
 - and prostaglandin release, 239
- Crosslinking**
 - in scar tissue, 47
- Cytotrophoblast**
 - fibrinoid as secretory product of, 8a
- Delphi study**
 - relevance of, 75a
- Desensitization**
 - and helper T-cell tolerance, 18a
- Dexamethasone**
 - cytoplasmic receptors for, 717
- Diabetes mellitus**
 - and glomerulosclerosis, capillary microaneurysms in, 37a
 - juvenile, neuropathology of, 57a
 - leukocytes in, 215
- Dialysis**
 - and soft tissue calcification, 403
- Diaphorase**
 - in liver and lung, carcinogens affecting, 28a
- Dicoumarin**
 - and DIC in pregnancy, 606
 - and liver and lung D-T diaphorase activity after carcinogens, 28a
- Diet**
 - and DIC in pregnancy, 608

- Diethylnitrosamine**
liver carcinoma induced with, 68a
- Diethylstilbestrol**
carcinogenic effects of, 469, 475
chemical structure of, 712
- DiGeorge syndrome**
anomalies with, 87a
- Dihydrotestosterone**
chemical structure of, 712
cytoplasmic receptors for, 717
- Dimethylnitrosamine**
in organ culture of lung, virus-like particles from, 66a
- DNA**
interaction with steroid hormone subunits, 733
- Ductus arteriosus**
hazards of manipulation of, 15a
- Duodenum**
biopsy in alcoholics, 82a
- Dusts**
environmental, affecting respiratory tract mucosa, 70a
- Ectodermal dysplasia**
hidrotic, striopallidodentate calcifications in, 34a
- Edema**
angioneurotic, hereditary, 235
- Education**
house staff, initiatives in, 75a
- Electrocardiography**
in cardiomyopathy in cat, 497
- Electron microscopy**
of astrocytosis from MSO, 285
of bronchial lesion from naphthalene, 559
of bronchial neuroendocrine cells, 23a
of cardiopathy in Chagas' disease, 533
of kidney in experimental toxemia of pregnancy, 578
of leukemic reticuloendotheliosis cells, 163
of lung carcinoma in sheep, 545
of lung collagen fibers, 81
of lung tumors from vinyl chloride, 24a
of Marfan's syndrome, 12a
of membrane alterations from lymphotoxin, 149
of mesenchymal renal tumors, 2a
of pancreatic insufficiency in mice, 17
of paraganglioma with polysome-lamellae complex, 523
of *Pneumocystis carinii*, 387
of rickettsiae in guinea pig, 343
of scar formation, 47
of tracheal graft rejection, 71
- Embolism**
cerebral microemboli and infarcts, experimental, 41a
- Emphysema**
and α -antitrypsin deficiency, 242
interstitial, giant cell reaction with, 88a
- Encephalopathy**
lead
animal model of, 485
cerebral capillaries in, 40a
from methotrexate, 57a
- Endocarditis**
nonbacterial thrombotic, mucin role in, 80a
- Endocrine neoplasia**
and centrioles and cilia in cells, 66a
- Endometrial tumors** (see uterine tumors)
- Endothelial cells**
aortic
in hypertension, 50a
regeneration after freezing, 133
arterial, in cultures, 677
- Enterotoxin**
staphylococcal, receptors for, on lymphoid cell surfaces, 20a
- Environmental carcinogenesis**
and role of pathologist, 460
- Environmental dusts**
affecting respiratory tract mucosa, 70a
- Enzymes**
G6PD (see Glucose-6-phosphate dehydrogenase)
lysyl oxidase in scar tissue, 47
prolyl hydroxylase activity after biliary duct ligation, 301
- Eosinophils**
chemotactic factor of anaphylaxis, 237
- Ependyma**
in fetal brain, 56a
- Epidemiology**
relation to pathology, 463
- Epilepsy**
cobalt-induced, 41a
temporal lobectomy in, 55a
- Epithelial cells**
culture-expanded skin for autografts, 7a
glomerular, complement receptor sites on, 635
interaction with lymphocytes, in rejection of tracheal grafts, 71
mammary gland, G6PD activity in, 123
thymic, in graft-versus-host reactions, 7a
tracheobronchial, squamous metaplasia of, 65a
- Erythrocytes**
sedimentation rate in inflammation, 219
- Esophagus**
pathology techniques for cancer studies, 466
- Esterase**
and chemotaxis, 208

- inhibitor in complement system, 226
- and angioneurotic edema, 235
- Estracyt, 725**
 - chemical structure of, 712
- 17 β -Estradiol**
 - chemical structure of, 712
- Estrogen**
 - cytoplasmic receptors for, 717
 - effects in atherosclerosis, 700
 - and prevention of DIC in pregnancy, 603
 - tumors from, 469, 470
- Ewing's tumor**
 - intragroup study of, 1a
- Fallot's tetralogy**
 - pathogenesis of, 31a
- Fanconi's anemia**
 - liver cancer from therapy in, 470
- Fatty streaks**
 - in atherosclerosis, 661, 668
 - mosaic composition of, 690
- α -Fetoprotein**
 - synthesis in liver, 359
- Fetus**
 - copper metabolism in, 5a
 - ependymal modifications in brain, 56a
 - mercury poisoning in, and neuronal migration in brain, 55a
 - peritoneal inflammatory cells in, 13a
 - pulmonary cytology of, 5a
- Fever**
 - in acute inflammation, 219
- Fibrin**
 - and immobilized lipoprotein in atherosclerosis, 671
- Fibroblasts**
 - activation in hypophysectomized rats, 84a
 - growth factor in inflammatory fluid, 33a
 - macrophage factor affecting, 275
 - in scars, 47
- Fletcher factor**
 - deficiency of, 234
- Freezing**
 - and aortic endothelium regeneration, 133
- Gallbladder**
 - pathology techniques for cancer studies, 466
- Gastroenteritis**
 - infantile, viruses in, 6a
- Genetics**
 - and brain tumor growth, 22a
- Giant cells**
 - with interstitial pneumatosis, 88a
- Glomerulonephritis**
 - and murine type C viral envelope antigen, 375
- Glomerulosclerosis**
 - diabetic, capillary microaneurysms in, 37a
- Glucose**
 - islet cell abnormalities in hypoglycemia, 10a
- Glucose-6-phosphate dehydrogenase**
 - deficiency of, 218
 - isoenzymes of
 - in atherosclerotic plaques, 660, 695
 - in mammary gland cells, 123
 - phenotype in leiomyomas, 688
- Grafts**
 - cardiac, hyperacute rejection of, platelet defect in, 19a
 - culture-expanded skin epithelium for autografts, 7a
 - heterotransplanted human tumors in nude mice, 29a
 - host-versus-graft disease
 - pathogenesis of, 9a
 - and tumor development, 22a
 - liver, hepatitis B antigens in, 62a
 - preserved cadaveric renal transplants, 46a
 - thymic epithelial damage in graft-versus-host reactions, 7a
 - tracheal, rejection of, 71
- Granulomata**
 - in lung tissues, 63a
- Granulomatous disease**
 - chronic, 217
- Granulopoiesis**
 - regulation of, 223
- Growth**
 - regulators in aorta, 32a
- Growth factor**
 - fibroblast, in inflammatory fluid, 33a
- Hageman factor**
 - activated, effects of, 225, 234
- Hairy cells**
 - of leukemic reticuloendotheliosis, 163
- Hamartoma**
 - cerebellar, with dense core granules, 58a
- Head injuries**
 - closed, photomicrotomy of, 40a
- Heart**
 - calcification in dialysis patients, 403
 - cardiomegaly with renovascular hypertension in newborn, 13a
 - cardiomyopathy in cat, 493
 - in Chagas' disease, 533
 - Fallot tetralogy pathogenesis, 31a
 - hyperacute rejection of allografts, platelet defect in, 19a

- in idiopathic hypertrophic subaortic stenosis, 77a
- ischemia of (*see* myocardial ischemia)
- necrosis from allylamine, 49a
- nonbacterial thrombotic endocarditis, mucin role in, 80a
- shape of ventricles in, 49a
- weight of, and coronary blood supply, 48a
- Hematite**
 - carcinogenic effects of, 475
- Hemolytic-uremic syndrome**
 - morphology in adults, 36a
- Hemorrhage**
 - intraventricular, in newborn, 85a
 - subarachnoid, neonatal, risk factors in, 14a
- Heparin**
 - and DIC in pregnancy, 606
- Hepatitis**
 - alcoholic, and T and B cells in liver, 20a
 - type A virus, 73a
 - type B virus
 - antigens in liver homograft cases, 62a
 - family distribution of, 72a
 - prospects for prevention of, 72a
 - for liver carcinoma induction, 68a
 - virus of
 - and hepatic carcinoma, 73a
 - tissue localization of, 72a
- Hepatocytes**
 - α -fetoprotein and albumin synthesis in, 359
- Hepatoma**
 - from oral contraceptives, 470
 - from spleen cell inoculations, 22a
- Herpesvirus**
 - isolation in routine work-up for genital ulcers, 67a
 - plasma membrane antigens, induction of antibodies to, 27a
- Hirschsprung's disease**
 - nonadrenergic inhibitory system in, 56a
- Histamine**
 - release from tissues, 236
- Histiocytoses**
 - congenital, liver in, 87a
- Hodgkin's disease**
 - and lymphocyte reactivity to anti-human brain serum, 8
 - pathology techniques for studies of, 466
- Homocytotropic antibody**
 - and amine release reactions, 236
- Host-versus-graft disease**
 - pathogenesis of, 9a
 - and tumor development, 22a
- Hyaluronidase**
 - affecting myocardial ischemia, 43a
- Hydrocephalus**
 - from influenza virus vaccine, 16a
- Hydronephrosis**
 - renal medullary vascular obstruction in, 425
- Hypersensitivity**
 - delayed, skin reactive factors in, 244
- Hypertension**
 - aortic endothelium in, 50a
 - with necrotic arteritis, plasma protein levels in, 36a
 - and peribronchiolar ferruginous microbody in lungs, 61a
 - renovascular, with cardiomegaly in newborn, 13a
- Hypoglycemia**
 - islet cell abnormalities in, 10a
- Hypophysectomy**
 - and fibroblast activation, 84a
- Hypoventilation**
 - central, in sleep, 86a
- Hypoxia**
 - and carotid artery occlusion, 42a
 - and membrane permeability in cardiac muscle, 43a
 - and microcirculation in myocardial ischemia, 42a
 - and renal changes in ischemia, 46a
- Iatrogenic factors**
 - in tumor development, 469
- Immune adherence**
 - in renal glomeruli, 635
- Immune mechanisms**
 - in chagasic cardiopathy, 533
 - in rickettsial infections of guinea pigs, 21a
 - in Schwartzman reaction, 117
- Immunocytochemistry**
 - of lysozyme, 64a
- Immunofluorescence**
 - of kidney in experimental toxemia of pregnancy, 579
 - of rickettsia in guinea pig, 343
- Immunologic function**
 - macrophage, age affecting, 64a
- Immunoperoxidase study**
 - of murine type C viral envelope antigen in mouse kidney, 375
- Immunosuppression**
 - cadmium-induced, and splenomegaly, 21a
- Inclusions**
 - cytoplasmic, in paraganglioma, 523
- Inflammation, acute, 185**
 - cellular events in, 201
 - mediators in, 224
 - systemic effects of, 219
 - vascular events in, 189, 274
- Inflammatory fluid**

- fibroblast growth factor activity in, 33a
- from sponge implant, LDH levels in, 85a
- Influenza vaccine**
 - as teratogen, 16a
- Intercellular junctions**
 - in acinar cell carcinoma of pancreas, 77a
 - in shock lung, 45a
- Intestines**
 - duodenal biopsy in alcoholics, 82a
 - nonadrenergic inhibitory system in megacolon, 56a
 - pathology techniques for cancer studies, 466
 - transplantable colon carcinoma, purification of cells from, 28a
- Iron**
 - plasma levels in inflammation, 219
- Ischemia** (*see also* hypoxia)
 - myocardial (*see* myocardial ischemia)
 - renal, 46a
- Islet cells**
 - abnormalities in hypoglycemia, 10a
- Isoproterenol**
 - macrophage binding to, 81a
- Janiceps**
 - characteristics of, 16a
- Job's syndrome**
 - neutrophils in, 215
- Kallikrein**
 - and kinin formation, 226, 234
- Keloid formation**
 - pathologic, 47
- Kidney**
 - acute failure of
 - cell membrane changes in, 46a
 - mitochondrial changes in, 47a
 - tubuloglomerular feedback in, 47a
 - calcification in dialysis patients, 403
 - capillary microaneurysms in diabetic glomerulosclerosis, 37a
 - in experimental toxemia of pregnancy, 578
 - focal sclerosis in membranous nephropathy, 37a
 - hormonal therapy in renal cell carcinoma, 725
 - immune adherence in glomeruli, 635
 - medullary vascular obstruction in hydronephrosis, 425
 - mesenchymal tumors in childhood, 2a
 - metaplasia of renovascular smooth muscle cells into juxtaglomerular cells, 39a
 - morphology of hemolytic-uremic syndrome, 36a
 - murine type C viral envelope antigen in, 375
 - nuclear changes in lupus nephritis, 38a
 - pathology techniques for cancer studies, 466
 - preserved cadaveric transplants, 46a
 - purified proximal tubule cells, 591
 - renovascular hypertension with cardiomegaly, in newborn, 13a
- Kimmelstiel-Wilson nodules**
 - development in diabetics, 37a
- Kinin system**
 - as mediator of inflammation, 225
- Laboratory procedures**
 - for pediatric care, symposium on, 4a
- Lactation**
 - and G6PD activity in mammary gland cells, 123
- Lactic dehydrogenase**
 - in sponge implant inflammatory fluid, 85a
- Larynx**
 - pathology techniques for cancer studies, 466
- Lasiocarpine**
 - malignancies from, 24a
- Lead**
 - dietary, and tumor induction, 26a
 - encephalopathy from
 - animal model of, 485
 - cerebral capillaries in, 40a
- Leucocidin**
 - cytotoxic effect of, 242
- Leukemia**
 - lymphoblastic, hormonal manipulative therapy in, 724
 - and lymphocyte reactivity to anti-human brain serum, 6
 - pathology techniques for studies of, 466
 - in remission, marrow cells in, 30a
- Leukemic reticuloendotheliosis**
 - hairy cells of, 163
- Leukocytes**
 - in acute inflammation, 201, 275
 - chemotactic attraction of, 204, 230
 - and histamine release from platelets, 236
 - inhibitory factor, 244
 - mobilizing factor, 222, 232
- Leukocytosis**
 - in acute inflammation, 221
 - inducing factor, 222
- Leukokinins**
 - release from plasma, 241
- Leukoplakia**
 - as precancerous lesion, 472
- Lip cancer**
 - pathology techniques for study of, 466

Lipid levels

and xanthomas in atherosclerosis, 51a

Lipofuscinosis

neuronal, and lipidosis, 39a

Lipoprotein

immobilization in atherosclerosis, 670

Liver (see also hepatitis)

cell cultures

in monolayers, 33a

serum levels affecting, 34a

in citrullinemia, 88a

collagen polymorphism in injuries of, 61a

D-T diaphorase activity affected by carcinogens, 28a

in experimental toxemia of pregnancy, 579

α -fetoprotein and albumin synthesis in, 359

flow-through microfluorometry of nuclei, 59a

focal nodular hyperplasia in childhood, 2a

in congenital histiocytoses, 87a

syndrome from hepatotoxins in adrenalectomized rabbits, 80a

tryptophan affecting protein synthesis in, 62a

tumors of

from estrogens, 470

experimental carcinoma in monkeys, 68a

from nafenopin, 25a

pathology techniques for studies of, 466

from spleen cell inoculations, 22a

from therapy in Fanconi's anemia, 470

Lobectomy

temporal, in seizure disorders, 55a

Lung

in allergic bronchopulmonary aspergillosis, 83a

anomalous venous return in, 17a

calcification in dialysis patients, 403

collagen fibers of, 81

cytology in neonate and fetus, 5a

DMN-treated organ culture of, virus-like particle in, 66a

D-T diaphorase activity affected by carcinogens, 28a

granulomata in, 63a

injury from oxygen delivered by endotracheal tubes, 86a

intercellular junctions in shock lung, 45a

interstitial pneumatosis with giant cells, 88a

particulate concentration in alveolar proteinosis, 53a

peribronchiolar ferruginous microbody

in, in hypertension, 61a

tumors of

from environmental agents, 470

pathology techniques for studies of, 466

in sheep, 545

from vinyl chloride, 24a

Lupus-like glomerulonephritis

and murine type C viral envelope antigen, 375

Lupus nephritis

nuclear changes in, 38a

Lymph node

permeability factor, 243, 245

Lymphocytes

in chagasic cardiopathy, 533

helper T cells

tolerance in, and desensitization, 18a

unresponsiveness in, 18a

interaction with epithelium, in rejection of tracheal grafts, 71

levels of T and B cells in liver in alcoholic hepatitis, 20a

products released in inflammation, 243

quantitation of T and B cells, 79a

reactivity with anti-human brain serum, 1

surface receptors for staphylococcal enterotoxin, 20a

transformation affected by choline deficiency, 69a

Lymphokines

release of, 243

Lymphoma

hormonal manipulative therapy in, 724

and lymphocyte reactivity to anti-human brain serum, 7

pathology techniques for studies of, 466

Lymphotoxin

cytotoxic effect of, 244

membrane alterations from, 149

Lysosomal enzymes

and periodontal disease, 275

releasing factor, 232, 243

Lysosomes

inflammatory mediators released from, 240

Lysozyme

immunocytochemistry of, 64a

Lysyl oxidase

activity in scar tissue, 47

Macrophages

activation of, and tubercle bacilli destruction, 623

aging affecting immunologic functions of, 64a

and fibroblast proliferation, 275

- migration inhibitory factor, 243
 - peritoneal, β -adrenergic receptors on, 81a
- Magnesium**
 - dietary, and tumor induction, 26a
- Malignancies** (*see* neoplasia)
- Mammography**
 - heavy-ion, 70a
- Marfan's syndrome**
 - microscopic studies of, 12a
- Marrow cells**
 - liquid culture system for, 30a
- Mast cells**
 - histamine release from, 236
- Measles vaccine**
 - and subcutaneous proliferation of measles virus, 10a
- Megacolon**
 - nonadrenergic inhibitory system in, 56a
- Melphalan**
 - carcinogenic effects of, 475
- Membrane**
 - alterations from lymphotoxin, 149
 - herpesvirus antigens of, induction of antibodies to, 27a
 - permeability in myocardial ischemia, 43a
- Mercury poisoning**
 - and neuronal migration in fetal brain, 55a
- Mesothelioma**
 - from asbestos, 469
- Methionine sulfoximine**
 - astrocytosis from, 285
- Methotrexate**
 - encephalopathy from, 57a
- Microfluorometry**
 - flow-through, of liver nuclei, 59a
- Microvasculature**
 - cerebral, in lead encephalopathy, 40a
 - diabetic glomerulosclerosis with microaneurysms, 37a
 - in myocardial ischemia, 42a
 - propranolol affecting, 44a
- Mitochondria**
 - in acute renal failure, 47a
- Moloney sarcoma virus**
 - and osteosarcoma induction in rat, 437
- Mosaic systems**
 - patterns in, 685
- Mucin**
 - role in nonbacterial thrombotic endocarditis, 80a
- Muscle**
 - skeletal, sarcoplasmic reticulum of, 59a
- Mustard gas**
 - carcinogenic effects of, 475
- Myocardial ischemia**
 - cell volume regulation in, 44a
 - hyaluronidase affecting, 43a
 - membrane permeability alterations in, 43a
 - microcirculation in, 42a
 - propranolol affecting, 44a
- Nefenopin**
 - liver tumors from, 25a
- Nafoxidine**
 - chemical structure of, 712
- Naphthalene**
 - bronchiolar lesion from, 559
- 2-Naphthylamine**
 - carcinogenic effects of, 475
- Nasopharynx**
 - pathology techniques for cancer studies, 466
- Neoplasia** (*see also* anatomic sites of neoplasia)

symposium on disorders, 1a
- Periodontal disease**
lysosomal enzymes in, 275
- Phagocytosis**
in acute inflammation, 209, 274
- Pharyngeal pouch**
anomalies with other embryonic defects, 87a
- Pharynx**
pathology techniques for cancer studies, 466
- Photomicrotomy**
of closed head injuries, 40a
- Pituitary gland**
fibroblast activation in hypophysectomized rats, 84a
- Placenta**
in experimental toxemia of pregnancy, 579
fibrinoid deposition in, 8a
- Plasma membrane vesicles**
herpesvirus antigens in, induction of antibodies to, 27a
- Plasmin**
effects in acute inflammation, 233
- Platelets**
in aortic endothelial regeneration after freezing, 133
histamine release from, 236
in hyperacute rejection of cardiac allografts, 19a
prostaglandin affecting, 99
- Pneumatosi**
interstitial, with giant cells, 88a
- Pneumocystis carinii***
electron microscopy study of, 387
- Polysome-lamellae complex**
in paraganglioma, 523
- Pregnancy**
and DIC induction with progesterone, 603
and premature rupture of membranes, 31a
toxemia of, experimental, 573
and transplacental carcinogenesis, 469, 478
- Progesterone**
chemical structure of, 712
cytoplasmic receptors for, 717
and DIC induction in pregnancy, 603
- Prolyl hydroxylase**
activity after biliary duct ligation, 301
- Properdin system**
and complement activation, 227, 276
- Propranolol**
and microvascular damage in myocar-

- dial ischemia, 44a
- Prostaglandins**
 - in acute inflammation, 238
 - affecting platelets, 99
- Prostate carcinoma**
 - hormonal manipulative therapy in, 722
 - metastasis of, animal model of, 277
 - pathology techniques for studies of, 466
- Proteases**
 - release from lysosomes, 241
- Protein**
 - binding to steroid hormones, extra-cellular, 707
 - cationic, release from lysosomes, 240
 - hepatic synthesis of, tryptophan affect-ing, 62a
 - plasma levels in hypertension with ne-crotic arteritis, 36a
- Proteinosis**
 - pulmonary alveolar, particulate concen-tration in, 63a
- Protohemin**
 - in neonates, 62
- Public health**
 - and role of pathologist, 460
- Pyrazole**
 - thyroid necrosis from, 83a
- Pyrogens**
 - factors in release of, 220
- R5020**
 - chemical structure of, 712
- Radiation**
 - heavy-particle
 - chronic effects of, 71a
 - for mammography, 70a
- Radiography**
 - of cardiomyopathy in cat, 500
- Receptors**
 - for steroid hormones, 705
- Rectum**
 - pathology techniques for cancer studies, 466
- Renin**
 - activity in experimental toxemia of pregnancy, 573
- Reticuloendotheliosis**
 - leukemic, hairy cells of, 163
- Rhabdomyoma**
 - intragroup study of, 1a
- Rickettsial infections**
 - in guinea pig, 343
 - immune response in, 21a
- RNA**
 - synthesis *in vitro*, 732

 - calcification in dialysis patients, 403

- pathology techniques for cancer studies, 466
- Striopallidodentate calcifications**
 - in hidrotic ectodermal dysplasia, 34a
- Substance P**
 - characteristics of, 245
- Synovium**
 - in hypertrophic osteoarthropathy, 82a
- Teratogens**
 - influenza virus vaccine as, 16a
- Testes**
 - pathology techniques for cancer studies, 466
- Testosterone**
 - chemical structure of, 712
- Tetralogy of Fallot**
 - pathogenesis of, 31a
- Thrombocytopenia**
 - animal model of, 489
- Thrombosis**
 - disseminated, in nonbacterial thrombotic endocarditis, 80a
- Thromboxane A₂**
 - and platelet aggregation, 99
- Thymocytes**
 - antithymocyte serum, 8
- Thymus**
 - epithelial damage in graft-versus-host reactions, 7a
 - in perinatal death, 8a
- Thyroid gland**
 - necrosis from pyrazole, 83a
- Tongue**
 - pathology techniques for cancer studies, 466
- Toxemia of pregnancy**
 - experimental, 573
- Tracheal grafts**
 - rejection of, 71
- Tracheobronchial mucosa**
 - environmental dusts affecting, 70a
 - squamous metaplasia in, 65a
- Transfer factor**
 - lymphocyte-derived, 245
- Transplants (see grafts)**
- Trauma**
 - photomicrotomy of closed head injuries, 40a
 - pulmonary, from oxygen via endotracheal tubes, 86a
 - surgical repair of wounded arteries, 60a
- Trypsinogen**
 - activation in pancreatic insufficiency in mice, 31
- Tryptophan**
 - affecting hepatic protein synthesis, 62a
- Tubercle bacilli**
 - destruction of, and macrophage activation, 623
- Tufts**
 - characteristics of, 211, 246
- Tumors (see neoplasia)**
- Twins**
 - conjoined, 16a
- Uterine tumors**
 - from 2-AAF, 27a
 - hormonal manipulative therapy in, 724
 - pathology techniques for studies of, 466
- Vaccines**
 - influenza, as teratogen, 16a
 - measles, and subcutaneous proliferation of virus, 10a
- Vagina**
 - carcinoma from prenatal exposure to DES, 469, 475
- Vasculature (see also microvasculature)**
 - in acute inflammation, 189, 274
 - aorta (see aorta)
 - arterial cells in culture, 677
 - atherosclerosis of (see atherosclerosis)
 - carotid artery occlusion, 42a
 - coronary arteries in cardiac hypertrophy, 48a
 - necrotic arteritis with hypertension, plasma protein levels in, 36a
 - permeability of, and amyloid formation, 321
 - renal medullary obstruction, in hydro-nephrosis, 425
 - surgical repair of wounded arteries, 60a
 - tissue cells in culture, rabbit and fetal calf serum affecting, 35a
 - transformed renovascular smooth muscle cells, 39a
- Ventilation**
 - central hypoventilation in sleep, 86a
 - pulmonary injury from oxygen through endotracheal tubes, 86a
- Ventricles**
 - cardiac, shape of, 49a
 - cerebral, hemorrhage in newborn, 85a
- Vinyl chloride**
 - angiosarcoma from, 469
 - carcinogenic effects of, 475
 - lung tumors from, 24a
- Virus-like particle**
 - in DMN-treated organ culture of lung, 66a
- Viruses**
 - avian sarcoma virus for tumor induction in adult rats, 67a
 - and gastroenteritis in children, 6a
 - herpesvirus antigens in plasma membrane vesicles, 27a

- measles virus panniculitis after vaccine
10a
- murine type C viral envelope antigen in
mouse kidney, 375
- and osteosarcoma induction in rat, 437
- Wilms tumor**
 - national study of, 1a
- Xanthomas**
 - related to lipid levels in atherosclerosis,
51a
- Yolk sac carcinoma**
 - experimental, 15a
- Zellwegers syndrome**
 - diagnosis of, 11a
- Zymogen granules**
 - in pancreatic insufficiency in mice, 17,

The American Journal of PATHOLOGY

CONTENTS FOR VOLUME 86, 1977

January

- 1 Reactivity of Anti-Human Brain Serum With Human Lymphocytes
Theresa L. Whiteside
- 17 Exocrine Pancreatic Insufficiency Syndrome in CBA/J Mice. I. Ultrastructural Study
John J. Eppig and Edward H. Leiter
- 31 Exocrine Pancreatic Insufficiency Syndrome in CBA/J Mice. II. Biochemical Studies
Edward H. Leiter, Edward C. Dempsey, and John J. Eppig
- 47 Pathologic Scar Formation: Morphologic and Biochemical Correlates
T. R. Knapp, J. R. Daniels, and E. N. Kaplan
- 71 Lymphocyte-Epithelium Interaction During Rejection of Nonisogenic Rat Tracheal Grafts
Bernard P. Lane, Gail S. Habicht, and Glory S. Jasper
- 81 Chemical and Histochemical Studies of Human Alveolar Collagen Fibers
Thomas W. Huang
- 99 The Influence of Prostaglandin G_2 on Platelet Ultrastructure and Platelet Secretion
Jonathan M. Gerrard, DeWayne Townsend, Steven Stoddard, Carl J. Witkop, Jr., and James G. White
- 117 The Local Shwartzman Reaction in the Rabbit: Immunopathologic Findings in the Skin
Jerry M. Bergstein
- 123 Glucose-6-Phosphate Dehydrogenase Isoenzymes in Acinar Epithelial Cells Separated From the Mammary Gland of the Rat at Intervals During the Course of Lactation
Margaret M. Scalise, Randall B. Thorp, Jr., Thomas G. Pretlow II, and Tariq M. Murad
- 133 Regeneration of Endothelium in Rat Aorta After Local Freezing: A Scanning Electron Microscopic Study
Henryk T. Malczak and Robert C. Buck
- 149 Target-Cell Membrane Alterations Induced by Lymphotoxin: Ultrastructural Observations
Daniel S. Friend and Werner Rosenau
- 163 Further Ultrastructural Characterization of Hairy Cells of Leukemic Reticuloendotheliosis
Isao Katayama and Gary B. Schneider
- 183 REVIEW ARTICLE: Acute Inflammation
Graeme B. Ryan and Guido Majno
- 277 Animal Model of Human Disease: Metastatic Adenocarcinoma of the Prostate
Morris Pollard
- 281 Animal Model of Human Disease: Sporotrichosis
William C. Barbee, Adam Ewert, and Etta Macdonald Davidson

February

- 285 Ultrastructural Study of Methionine Sulfoximine-Induced Alzheimer Type II Astrocytosis
Jorge A. Gutierrez and Michael D. Norenberg
- 301 Morphologic, Biophysical, and Biochemical Consequences of Ligation of the Common Biliary Duct in the Dog
Edward Carlson, Charles F. Zukoski, Jerrolynn Campbell, and Milos Chvapil
- 321 Role of Altered Vascular Permeability in Amyloid Formation
Russell T. Schultz
- 343 Identification of *Rickettsia rickettsii* in a Guinea Pig Model by Immunofluorescent and Electron Microscopic Techniques
David H. Walker, Alyne Harrison, Frederick Henderson, and Frederick A. Murphy
- 359 The Dynamics of α -Fetoprotein and Albumin Synthesis in Human and Rat Liver During Normal Ontogeny
N. C. Nayak and Indira Mital
- 375 Murine Type C Viral Envelope Glycoprotein gp69/71 and Lupus-Like Glomerulonephritis of New Zealand Mice: An Immunoperoxidase Study
Masakatsu Imamura, Robert C. Mellors, Mette Strand, and J. T. August
- 387 *Pneumocystis carinii* In Vitro: A Study by Scanning Electron Microscopy
Martin J. Murphy, Jr., Linda L. Pfifer, and Walter T. Hughes
- 403 Soft Tissue Calcification in Chronic Dialysis Patients
D. C. Kuzela, W. E. Huffer, J. D. Conger, S. D. Winter, and W. S. Hammond
- 425 Reversible Inner Medullary Vascular Obstruction in Acute Experimental Hydronephrosis
Melvin M. Schwartz, Manjeri A. Venkatachalam, and Ramzi S. Cotran
- 437 Virus-Induced Animal Model of Osteosarcoma in the Rat: Morphologic and Biochemical Studies
Harry M. Olson and Charles C. Capen
- 459 REVIEW ARTICLE: The Role of the Pathologist in Environmental Medicine and Public Health
John Higginson
- 485 Animal Model of Human Disease: Lead Encephalopathy in Children
Michael F. Press

- 489 **Animal Model of Human Disease: Immune-Mediated Thrombocytopenia, Autoimmune Thrombocytopenia, Idiopathic Thrombocytopenic Purpura**
W. Jean Dodds and Robert J. Wilkins

- 1a **Joint Meeting of the American Association of Pathologist and The Pediatric Pathology Club: Scientific Proceedings, 1977**

March 1977

- 493 **Primary Myocardial Disease in the Cat: A Model for Human Cardiomyopathy**
Lawrence P. Tilley, Si-Kwang Liu, Steven R. Gilbertson, Bernard M. Wagner, and Peter F. Lord
- 523 **Ultrastructure of a Polysome-Lamellae Complex in a Human Paraganglioma**
B. Nabarra, E. Sonsino, and I. Andrianarison
- 533 **Chagasic Cardiopathy: Immunopathologic and Morphologic Studies in Myocardial Biopsies**
Patricio M. Cossio, Rubén P. Laguens, Eduardo Kreutzer, Carlos Diez, Amada Segal, and Roberto M. Arana
- 545 **Pulmonary Carcinoma (Jaagsiekte) of Sheep: Ultrastructural Study of Early and Advanced Tumor Lesions**
I. Hod, A. Herz, and A. Zimmer
- 559 **Morphology of a Naphthalene-Induced Bronchiolar Lesion**
David Mahvi, Harvey Bank, and Russell Harley
- 573 **Experimental Toxemia of Pregnancy in the Monkey, With a Preliminary Report on Renin and Aldosterone**
M. Maurice Abitbol, William B. Ober, Gloria R. Gallo, Shirley G. Driscoll, and Conrad L. Pirani
- 591 **Separation of Proximal Tubule Cells From Suspensions of Rat Kidney Cells in Density Gradients of Ficoll in Tissue Culture Medium**
Jeffrey I. Kreisberg, Annette M. Pitts, and Thomas G. Pretlow II
- 603 **Disseminated Intravascular Coagulation Induced by Progesterone in the Pregnant Rat: Prevention by Estrogens**
F. W. Stampler
- 623 **Histochemical Studies Relating the Activation of Macrophages to the Intracellular Destruction of Tubercle Bacilli**
Masayuki Ando, Arthur M. Dannenberg, Jr., Mineharu Sugimoto, and Byron S. Tepper
- 635 **Immune Adherence in Renal Glomeruli: Complement Receptor Sites on Glomerular Capillary Epithelial Cells**
Peter M. Burkholder, Terry D. Oberley, Thomas A. Barber, Anne Beacom, and Calvin Koehler

SYMPOSIUM: ATHEROSCLEROSIS—A NEW LOOK AT THE PROBLEM

- 656 **Introduction**
Earl P. Benditt
- 657 **The Human Atherosclerotic Plaque**
T. A. Pearson, E. C. Kramer, K. Solez, and R. H. Heptinstall
- 665 **Molecular Interactions in Human Atherosclerotic Plaques**
Elsbeth B. Smith

- 675 Response to Injury and Atherogenesis
Russell Ross, John Glomset, and Laurence Harker
- 685 Patterns of Cellular Proliferation in Normal and Tumor Cell Populations
Stanley M. Gartler
- 693 Implications of the Monoclonal Character of Human Atherosclerotic Plaques
Earl P. Benditt
- 703 REVIEW ARTICLE: Steroid Hormone Receptors in the Regulation of Differentiation
Kenneth S. McCarty, Jr., and Kenneth S. McCarty, Sr.
- 745 **Animal Model of Human Disease:** Osteopetrosis, Albers-Schönberg Disease, Marble Bone Disease
H. W. Leipold and J. E. Cook
- 749 **Animal Model of Human Disease:** Adrenal Infection, Necrosis, and Hypercorticism
J. K. Frenkel
-
- 753 Index of Subjects, Volume 86

CONTENTS FOR VOLUME 87

Index of Subjects

Volume 87, 1977

- A23187**
and neutrophil granule mobilization, 273
- Acrodermatitis enteropathica**
animal model of, 725
- Aging**
and carcinogenesis, 443
- Alcoholism**
and cirrhosis, 236
- Alveolar cells**
bleomycin affecting, 569
- Amyloidosis**
animal model of, 732
- Anemia**
aplastic, animal model of, 265
- Animal Models of Human Disease**
amyloidosis, 721
anemia, aplastic, 265
cretinism, 473
hydronephrosis, 477
leukemia, acute lymphoblastic, 265
porphyria, congenital erythropoietic, 269
zinc deficiency in cattle, 725
- Aorta**
intimal healing after endothelial cell loss, 125
lipid accumulation in medial cells, 205
- Arteries** (see vasculature)
- Atherosclerosis**
in cardiac allografts, 415
and intimal healing after endothelial cell loss, 125
and lipid accumulation in aortic medial cells, 205
- Autoradiography**
of juxtaglomerular cells in ischemic kidney, 581
- Azo dyes**
and cholangiocarcinoma induction, 189
- Biopsy**
liver, in cirrhosis, 234
renal, in silent lupus nephropathy, 8
- Bleomycin**
lung injury from, 569
- Bone**
estrogen affecting, 311
in VX-2 carcinoma, 537
- Calcitonin**
and bone cell changes from estrogen, 311
- Calcium levels**
and bone cell changes from estrogen, 311
dichloromethane diphosphonate affecting, 615
- Carcinogenesis**
and aging, 443
- Cartilage**
virus-induced dissolution of, 667
- Cells**
alveolar cells affected by bleomycin, 569
bone cells affected by estrogen, 311
endothelial cell loss affecting aortic intimal healing, 125
herniations in arterial wall, 375
host cell entry by *T. gondii*, 285
Ig identification in plasma cells, with immunoperoxidase, 47
immunologic surface markers on
in lymphomas, 19
in peripheral and central lymph, 59
in ischemic border in myocardial infarction, 81
juxtaglomerular cells in ischemic kidney, 581
mycoplasma-macrophage interactions, 331, 347
neoplastic transformation in cultures, 460
neutrophil granule mobilization, 273
properties in myositis ossificans progressiva, 482
Solanum malacoxylon affecting parathyroid and thyroid cells, 603
- Chemotactic factor**
macrophage, in delayed hypersensitivity reactions, 359
- Cholangiocarcinoma**
experimental, 189
- Cholesterol**
accumulation in aortic medial cells, 205
- Chromosomes**
in carcinogenesis and aging, 456
- Cirrhosis, 228**
alcoholic, 236
classification of, 228
congestive, 238
cryptogenic, 240
drug-induced, 238
etiology of, 236
hepatitis related to, 230, 238
hereditary factors in, 239
from iron overload, 239

CONTENTS FOR VOLUME 87, 1977

April 1977

- 1 Immunopathology of Early and Clinically Silent Lupus Nephropathy
Tito Cavallo, William R. Cameron, and Don Lapenas
- 19 Immunologic Surface Markers in Non-Hodgkin's Lymphomas
Jeffrey Cossman, Bertram Schnitzer, and Michael J. Deegan
- 33 The Induction of Human Myospherulosis in Experimental Animals
Katherine De Schryver-Keesckemeti and Michael Kyriakos
- 47 Specific Identification of Intracellular Immunoglobulin in Paraffin Sections of Multiple Myeloma and Macroglobulinemia Using an Immunoperoxidase Technique
Geraldine S. Pinkus and Jonathan W. Said
- 59 Reassortment of Lymphocytes in Lymph From Normal and Allografted Sheep
Hugh R. P. Miller and Eric P. Adams
- 81 Ultrastructural Changes in the Ischemic Zone Bordering Experimental Infarcts in Rat Left Ventricles
Ernest Page and Philip I. Poliment
- 105 A Lung Model of Schistosome Immunity in Mice
Franz von Lichtenberg, Alan Sher, and Susan McIntyre
- 125 Intimal Healing: The Pattern of Reendothelialization and Intimal Thickening
M. B. Stemerman, T. H. Spaet, F. Pitlick, J. Cintron, I. Lejnieks, and M. L. Tiell

AUTHOR

CONTENTS FOR VOLUME 88

Index of Subjects

Volume 88, 1977

- A23187**
and erythrocyte plasticity, 81
- Abrasion**
and epidermal regeneration, 575
- Acid phosphatase**
in various cell types, 529
- ACTH**
secretion in thyroid carcinoma, 236
- Adrenal gland**
medullary disease with thyroid carcinoma, 239
- American Association of Pathologists**
annual meeting of, 793
- ϵ -Aminocaproic acid**
and cutaneous vascular fibrinolytic activity, 655
- Amyloid**
and serum protein Clt, 679
in thyroid neoplasms, 230
- Animal Model of Human Disease**
carcinoma of ureter and bladder, 251
multiple sclerosis, 497
uterine cervix carcinogenesis, 799
- Aorta**
hypertension-induced hypertrophy of, 619
lesions in serum sickness, 255
- Arachidonic acid**
and platelet prostaglandin biosynthesis, 387
- Autopsy**
as resource for research, 435, 451
- Autoradiography**
of platelets, 277
- Bacterial endotoxin**
and cutaneous vascular fibrinolytic activity, 655
inactivator of, 559
- Bacterial infections**
and defective chemotaxis, 718
- Basement membrane**
glomerular, and tubulointerstitial nephritis, 53
- Bladder**
animal model of carcinoma, 251
- Bone marrow**
transplantation of, and defective chemotaxis, 718
- Breast**
mitosis in epithelium, 267
- Bronchi**
tonofilaments in epithelium, 345
- Burns**
defective chemotaxis in, 719
- Calcitonin**
production by thyroid C cells, 219
secretion in thyroid carcinoma, 232
- Calcium**
and effects of A23187 on erythrocyte plasticity, 81
hypercalcemia affecting thyroid C cells, 220
- Carcinoma (see neoplasia)**
- Cardiovascular diseases**
conceptual approaches in, 433, 448
- Carotid artery**
occlusion affecting, 355
- Cells**
A23187 affecting erythrocyte plasticity, 81
acid phosphatase activity in, 529
B and T cells in lymphoproliferative disease, 754
carotid artery occlusion affecting, 355
cell-mediated immunity, 502
chromosome studies, 466
leukocyte function disorders, 699
lipid accumulation in, in hypoxia, 663
mitosis in mammary epithelium, 267
of myenteric plexus, in infantile hypertrophic pyloric stenosis, 309
nonspecificity of rosette formation, 69
rosette formation in frozen sections, 323
somatostatin, in thyroid medullary carcinoma, 381
as source of lymphokines, 511
surface morphology of, 29
swelling of, and irreversible myocardial injury, 95
thyroid C cells and carcinoma, 214
tonofilaments in bronchial epithelium, 345
- Chediak-Higashi syndrome**
defective chemotaxis in, 713
- Chemotaxis of leukocytes**
defective, conditions with, 711
dysfunction in cancer, 727
inactivator of chemotactic factor, 701
- Chlorpromazine**
and prevention of ischemic liver cell death, 539
- Chromosomes, 466**
banding of, 467
fine structure and molecular organization of, 480
gene mapping of, 475
in neoplasia, 470
new syndromes of, 471
in primates, 478

Coagulation

intravascular, in preserved cadaveric renal transplants, 403

Creatine phosphokinase

oxygen-induced release of, in myocardium, 95

Cryoglobulinemia

with glomerulonephritis, 145

Developmental disorders

conceptual approaches in, 432, 440

Diabetes mellitus

defective chemotaxis in, 717

Dialysis

and defective chemotaxis, 719

Diarrhea

in thyroid carcinoma, 235

Education in pathology

conceptual approaches in, 435, 451

Electron microscopy

of aortic lesions in serum sickness, 255

and autoradiography of platelets, 277

of carotid artery after occlusion, 355

of cellular rosette formation, 69

of cellular surface morphology, 29

of cellular swelling in myocardial injury, 95

of chromosomes, 480

of glomerulonephritis with cryoglobulinemia, 145

of lipid in hypoxic cells, 663

of myenteric plexus in infantile hypertrophic pyloric stenosis, 309

of pancreatic carcinoma, experimental, 5

of platelets after nitroblue tetrazolium and vitamin E, 387

of preserved cadaveric renal transplants, 403

of sarcolemma in ischemic myocardium, 583

of slow virus disease, 197

of thyroid C cells, 218, 230

of tonofilaments in bronchial epithelium, 345

of tubulointerstitial nephritis, 60

Endocrine adenopathy

multiple, with thyroid carcinoma, 237, 241

Endotoxin, bacterial

and cutaneous vascular fibrinolytic activity, 655

inactivator of, 559

Environmental pathology

conceptual approaches in, 433, 450

Enzymes

histaminase activity in thyroid carcinoma, 234

oxygen-induced release of, in myocardium, 95

Epidermis

regression of hyperplasia in, 575

Epithelial cells

acid phosphatase in, 529

bronchial, tonofilaments in, 345

mammary, mitosis in, 267

Erythrocytes

plasticity affected by A23187, 81

and rosette formation (*see* rosette formation)

Ethanol

and calcitonin secretion, 233

Fat

accumulation in hypoxic cells, 663

in carotid artery myointimal layer, after occlusion, 365

Fibrinolysis

cutaneous vascular, in local Shwartzman reaction, 655

Genetic disorders

and chromosome studies, 466

conceptual approaches in, 432, 440

Glomerulonephritis

with cryoglobulinemia, 145

tubulointerstitial, 53

Glucagon

and calcitonin secretion, 233

Goiter

thyroid C cells in, 220

Graft-versus-host reaction

thymic involution in, 119

Granulocytes

acid phosphatase in, 529

Granulomatous disease, chronic

defective chemotaxis in, 713

Heart

irreversible myocardial injury after cellular swelling, 95

sarcolemma of ischemic myocardium, 583

Hemodialysis

and defective chemotaxis, 719

Histaminase

activity in thyroid carcinoma, 234

Hypersensitivity, delayed

lymphokines in, 521

Hypertension

aortic hypertrophy in, 619

Hypogammaglobulinemia

and defective chemotaxis, 713

Hypoxia

and lipid accumulation in cells, 663

Immunofluorescence studies

of glomerulonephritis with cryoglobulinemia, 145

- of preserved cadaveric renal transplants, 403
- of protein C1t, 679
- of slow virus disease, 196
- of T lymphocytes in tissue sections, 768
- of tubulointerstitial nephritis, 58
- Immunoglobulin E**
 - elevated levels with defective chemotaxis, 715
- Immunology**
 - antigens in renal tubular lesions, 135
 - and aortic lesions in serum sickness, 255
 - and B and T cells in lymphoproliferative disease, 754
 - cell-mediated immunity, 502
 - migration inhibitory factor in allogeneic pregnancies, 333
 - and nonspecificity of cellular rosette formation, 69
 - and thymic involution in graft-versus-host reaction, 119

The American Journal of PATHOLOGY

CONTENTS FOR VOLUME 88, 1977

July 1977

- 1 Presentation of the Rous-Whipple Award to Richmond T. Prehn, MD: March 14, 1977
George M. Martin

- 5 Experimental Pancreatic Carcinogenesis. I. Morphogenesis of Pancreatic Adenocarcinoma in the Syrian Golden Hamster Induced by *N*-Nitroso-bis(2-hydroxypropyl)amine
Morton H. Levitt, Curtis C. Harris, Robert Squire, Stephen Springer, Martin Wenk, Cynthia Mollelo, Delma Thomas, Elizabeth Kingsbury, and Carnell Newkirk

- 29 Surface Morphology of Normal and Neoplastic Rat Cells
Miles W. Cloyd and Darell D. Bigner

- 53 Tubulointerstitial Nephritis and Glomerulonephritis in Brown-Norway Rats Immunized With Heterologous Glomerular Basement Membrane
John L. Robertson, Gary S. Hill, and David T. Rowlands, Jr.

- 69 The Lack of Specificity of the Sheep Erythrocyte-T Lymphocyte Rosetting Phenomenon
Bruce A. Woda, Cecilia M. Fenoglio, E. Gerda Nette, and Donald W. King

- 81 Influence of the Ionophore A23187 on the Plastic Behavior of Normal Erythrocytes
John F. Kuettner, Kenneth L. Dreher, Gundu H. R. Rao, John W. Eaton, Perry L. Blackshear, Jr., and James G. White

- 95 Cellular Swelling and Irreversible Myocardial Injury: Effects of Polyethylene Glycol and Mannitol in Perfused Rat Hearts
Charles E. Ganote, Jonathan Worstell, Joseph P. Iannotti, and John Paul Kaltenbach

- 119 Thymic Involution in Murine Graft-Versus-Host Reaction: Epithelial Injury Mimicking Human Thymic Dysplasia
Thomas A. Seemayer, Wayne S. Lapp, and Robert P. Bolande

- 135 Studies of the Antigens Involved in an Immunologic Renal Tubular Lesion in Rabbits
J. Klassen, F. M. Milgrom, and R. T. McCluskey

- 145 Ultrastructure in Glomerulonephritis Associated With Cryoglobulinemia: A Report of Six Cases and Review of the Literature
Helen Feiner and Gloria Gallo

- 163 Beneficial Effect of Propranolol in a Histologically Appropriate Model of Postischemic Acute Renal Failure
Kim Solez, Robert J. D'Agostini, Lala Stawowy, Matthew T. Freedman, William W. Scott, Jr., Stanley S. Siegelman, and Robert H. Heptinstall

- 193 Pathogenesis of the Slow Disease of the Central Nervous System Associated With WM 1504 E Virus. I. Relationship of Strain Susceptibility and Replication to Disease
Michael B. A. Oldstone, Peter W. Lampert, Sun Lee, and Frank J. Dixon
- 213 REVIEW ARTICLE: The C Cells (Parafollicular Cells) of the Thyroid Gland and Medullary Thyroid Carcinoma
John Beach Hazard
- 251 **Animal Model of Human Disease:** Carcinoma of the Ureter and Urinary Bladder
G. A. Boorman, J. D. Burek, and C. F. Hollander

August 1977

- 255 Experimental Aortic Lesions of Acute Serum Sickness in Rabbits
Hari M. Sharma and Jack C. Geer
- 267 Nonrandom Frequency Distribution of Mitoses in Rat Lobuloalveolar Mammary Gland Epithelium
Dallas M. Purnell and Deborah J. Stowers
- 277 Localization in Platelets of Sodium ^{51}Cr -Chromate, ^{125}I -Antibody to Whole Membrane, and ^3H -Diisopropylfluorophosphate Using Electron Microscopic Autoradiography
J. R. J. Baker, G. R. Bullock, N. Crawford, and D. G. Taylor
- 291 Early Lesions of Pancreatic Ductal Carcinoma in the Hamster Model
P. Pour, J. Althoff, and M. Takahashi
- 309 Ultrastructural Observations of the Myenteric Plexus of the Pylorus in Infantile Hypertrophic Pyloric Stenosis
Venkata R. Challa, Juda Z. Jona, and William R. Markesbery
- 323 Localization of Human T Lymphocytes in Tissue Sections by a Rosetting Technique
Daniel B. Brubaker and Theresa L. Whiteside
- 333 The Production of Migration Inhibitory Factor and Reproductive Capacity in Allogeneic Pregnancies
Jovan G. Tofoski and Thomas J. Gill III
- 345 Tonofilaments in Normal Human Bronchial Epithelium and in Squamous Cell Carcinoma
Sadayuki Inoue and G. Paul Dionne
- 355 Effect of Occlusion on Large Vessels. I. A Study of the Rat Carotid Artery
J. Bhawan, I. Joris, U. DeGirolami, and G. Majno
- 381 Somatostatin-Immunoreactive Cells in Medullary Carcinoma of the Thyroid
F. Sundler, J. Alumets, R. Håkanson, L. Björklund, and O. Ljungberg

- 387 Effects of Nitroblue Tetrazolium and Vitamin E on Platelet Ultrastructure, Aggregation, and Secretion
James G. White, Gundu H. R. Rao, and Jonathan M. Gerrard
- 403 Histologic Changes in Preserved Cadaveric Renal Transplants
Catherine Limas, David Spector, and John R. Wright
- 429 SPECIAL FEATURE: Conference on the Future of Academic Pathology: September 22-24, 1976, College Park, Maryland
Robert E. Stowell, Thomas J. Gill III, Benjamin F. Trump, and Dante G. Scarpelli
- 465 REVIEW ARTICLE: The Chromosomes of Man—Clinical and Biologic Significance
Jorge J. Yunis and Mary E. Chandler
- 497 **Animal Model of Human Disease: Multiple Sclerosis**
Mauro C. Dal Canto and Howard L. Lipton

September 1977

- 501 PARKE-DAVIS LECTURE: The Role of Cell-Mediated Immunity in the Induction of Inflammatory Responses
Stanley Cohen
- 529 "Prostatic Acid Phosphatase?" A Comparison of Acid Phosphatase Activities in Epithelial Cells, Granulocytes, Monocytes, Lymphocytes, and Platelets Purified by Velocity Sedimentation in Isokinetic Gradients of Ficoll in Tissue Culture Medium
Sherron R. Helms, Michael G. Brattain, Thomas G. Pretlow II, and Jeffrey I. Kreisberg
- 539 Prevention by Chlorpromazine of Ischemic Liver Cell Death
Kenneth R. Chien, Jacki Abrams, Richard G. Pfau, and John L. Farber
- 559 Isolation From Human Serum of an Inactivator of Bacterial Lipopolysaccharide
K. J. Johnson, P. A. Ward, S. Goralnick, and M. J. Osborn
- 575 Kinetics of Regression of Epidermal Hyperplasia in the Skin of Mice Following Abrasion
Thomas S. Argyris
- 583 Structural Changes in the Freeze-Fractured Sarcolemma of Ischemic Myocardium
Muhammad Ashraf and Craig A. Halverson
- 595 Rapid Emergence of Carcinogen-Induced Hyperplastic Lesions in a New Model for the Sequential Analysis of Liver Carcinogenesis
Dennis B. Solt, Alan Medline, and Emmanuel Farber
- 619 Morphometric Analysis of Hypertension-Induced Hypertrophy of Rat Thoracic Aorta
Joseph Wiener, Alden V. Loud, Filiberto Giacomelli, and Piero Anversa

- 635 The Pulmonary Vascular Pathology of Experimental Radiation Pneumonitis
David O. Slauson, Fletcher F. Hahn, and Thomas L. Chiffelle
- 655 Cutaneous Vascular Fibrinolytic Activity in the Local Shwartzman Reaction
Jerry M. Bergstein
- 663 Lipid Accumulation in Hypoxic Tissue Culture Cells
Gerald B. Gordon, Maureen A. Barcza, and Marilyn E. Bush
- 679 The Relationship of a Serum Protein, C1t, to a Common Nonfibrillar Constituent of Amyloid
 (P Component) as Revealed by Immunohistochemical Studies
Allan Katz, Jena Weicker-Thorne, and Robert H. Painter

SYMPOSIUM: Disorders of Leukocyte Function

- 700 Introduction
Peter A. Ward
- 701 Regulatory Dysfunction in Leukotaxis
Peter A. Ward, Kent J. Johnson, and Donald L. Kreutzer
- 711 Clinical Conditions Associated With Defective Polymorphonuclear Leukocyte Chemotaxis
Paul G. Quie and K. Lynn Cates
- 727 Macrophage Migratory Dysfunction in Cancer: A Mechanism for Subversion of Surveillance
Ralph Snyderman and Marilyn C. Pike
- 741 Phagocytosis: Clinical Disorders of Recognition and Ingestion
Thomas P. Stossel
- 753 REVIEW ARTICLE: T-Cell and B-Cell Identification in the Diagnosis of Lymphoproliferative
 Disease
Theresa L. Whiteside and David T. Rowlands, Jr.
- 793 The American Association of Pathologists: Seventy-fourth Annual Meeting
- 799 Animal Model of Human Disease: Carcinogenesis in the Uterine Cervix
C. A. Rubio

803 Index of Subjects, Volume 88

809 Index of Authors, Volume 88

INDEX

SUBJECT
AUTHOR
CONTENTS FOR VOLUME 89

Index of Subjects

Volume 89, 1977

- ACTH**
 - in cells in thyroid medullary carcinoma, 555
- Aging**
 - cellular, and clonal senescence, 484
 - and glycopeptide pigment in cartilage, 605
 - in postreplicative cells, 513
- Alcohol**
 - nephrotoxicity in rats, 67
- Alveolar damage**
 - diffuse, of toxic and viral etiology, 637
- Amyloidosis**
 - corneal, 737
 - of kidney, 246
- Animal Models of Human Disease**
 - DiGeorge syndrome, 809
 - pseudohyperparathyroidism, 531
 - pulmonary tuberculosis, 273
- Aorta**
 - endothelial permeability to proteins, 313
- APUD cells**
 - bronchial, pulmonary tumorigenesis, 59
- Atrium**
 - left, ultrastructure in mitral valvular disease, 575
- Autoradiography**
 - of endothelial cells after thermal injury, 277
- Bacteriuria**, 259
- Barium sulfate**
 - and differentiation of mononuclear phagocytes, 335
- Basement membrane**
 - of blood vessels in areas of brain tuberculomas, 35
 - of cornea, 770
 - glomerular, antibodies to, nephritis from, 190
- Biopsy**
 - of skin, in acute graft-versus-host disease, 621
- Biphenyls**
 - polychlorinated, affecting thyroid gland, 119
- Bladder**
 - pathogenesis of cancer in, 431
- Blood flow**
 - myocardial, in chronic hypoxemia, 541
 - renal, after temporary ischemia, 153
- Blood vessels** (*see* vasculature)
- Bone**
 - vitamin D and Cl_2MDP interaction in, 137
- Bowman's zone**
 - corneal, 771
- Brain**
 - tuberculomas of, vasculopathy in areas of, 35
- Breast**
 - preneoplastic lesions of, 413
- Bronchi**
 - epithelial changes in pulmonary tumorigenesis, 59
- Burns**
 - endothelial proliferation in, 277
- Calcitonin**
 - in cells in thyroid medullary carcinoma, 555
- Calicivirus**
 - feline, alveolar damage from, 637
- Carcinoma** (*see* neoplasia)
- Cartilage**
 - glycopeptide pigment in, in aging, 605
- Cellular aging**
 - and clonal senescence, 484
 - in postreplicative cells, 513
- Chondroitin-4-sulfate**
 - in cornea, 724
- Chromosome abnormalities**
 - in preleukemia, 459
- Clara cells**
 - bronchial, in pulmonary tuberculosis, 59
- Climate**
 - and keratopathy induction, 759
- Coagulation**
 - intravascular, glomerular disease with, 249
- Colchicine**
 - in melanomas, 297
- Collagen**
 - in cornea, 731
- Cornea**, 719
 - amyloidosis of, 737
 - avascularity and vascularization of, 741
 - basement membrane of, 770
 - Bowman's zone in, 771
 - chronic actinic keratopathy, 759
 - collagen in, 731
 - curvature abnormalities, 757
 - Descemet's membrane of, 778
 - edema of, 774
 - endothelium of, 780

- epithelium of, 766
- extracellular macromolecules in, 772
- foreign cells in, 724
- glycosaminoglycans in, 723
- hypersensitivity of, 756
- macular dystrophy of, 167, 727
- in mucopolysaccharidoses, 167, 727, 776
- proteoglycans in, 723
- stroma of, 772
- subepithelial pannus in, 771
- transplantation of, 753
- Coronary arteries**
 - occlusion of, and collateral circulation development, 541
 - structural changes in media related to intimal thickening, 13
- Crescent formation**
 - in rapidly progressive glomerulonephritis, 219
- Descemet's membrane, 778**
- Diabetes**
 - renal changes in, 241
- Dichloromethylene diphosphonate**
 - interaction with vitamin D in bone, 137
- DiGeorge syndrome**
 - animal model of, 809
- Edema**
 - of corneal stroma, 774
- Electron microscopy**
 - of aortic endothelial permeability, 313
 - of blood vessels in areas of blood tuberculosis, 35
 - of bone cells affected by diphosphonates, 137
 - of bronchial epithelia in pulmonary tumorigenesis, 59
 - of erythrocyte degradation in thyroid epithelium, 85
 - of left atrium in mitral valvular disease, 575
 - of mononuclear phagocyte differentiation, 335
 - of renal cells after temporary ischemia, 153
 - of renal glomerular hematoxylin bodies, 105
 - of renal tissues after ethanol, 67
 - of thyroid gland after PCB, 119
- Encephalitis**
 - in Newcastle disease, 649
- Endothelial cells**
 - aortic, permeability to proteins, 313
 - corneal, 780
 - glomerular, after temporary ischemia, 153
 - skin thermal injury affecting, 277
- Epithelial cells**
 - bronchial, in pulmonary tumorigenesis, 59
 - of cornea, 766
 - glomerular, changes in disease, 194
 - thyroid, erythrocyte degradation in, 85
- Erythrocytes**
 - degradation in thyroid epithelium, 85
- Ethanol**
 - nephrotoxicity in rats, 67
- Eye**
 - corneal disease, 167, 719
- Fabry disease**
 - cornea in, 768, 770
- Gastrin-producing cells**
 - antropyloric, hyperplasia in hypercalcemia with VX₂ carcinoma, 391
- Glomerulonephritis (see kidney)**
- Glomerulosclerosis**
 - focal, 194
- Glycopeptide pigment**
 - in cartilage, age-associated, 605
- Glycosaminoglycans in cornea, 723**
 - in macular corneal dystrophy, 167
- Gold Headed Cane Award, 3**
- Goodpasture syndrome, 221**
- Grafts (see transplants)**
- Granulomas**
 - foreign-body, 335
- Granulomatous disease**
 - intracytoplasmic lysozyme in, 355
- Hassall-Henle bodies**
 - corneal, 779
- Heart (see also myocardium)**
 - left atrial ultrastructure in mitral valvular disease, 575
- Hematoxylin bodies**
 - renal glomerular, 105
- Hunter syndrome**
 - cornea in, 167, 727
- Hurler syndrome**
 - cornea in, 167, 727, 768, 776, 781
- Hypersensitivity**
 - corneal, 756
- Hypertension**
 - and renal vascular disease, 265
- Hyperthermia**
 - malignant, myocardial changes in, 51
- Immune complex glomerulonephritis, 191**
- Immunohistochemistry**
 - of thyroid carcinoma cells, 555
- Immunoperoxidase studies**
 - of antropyloric G-cell hyperplasia in VX₂ carcinoma, 391

- of intracytoplasmic lysozyme, 351
- Ischemia**
 - and myocardial blood flow, 541
 - and renal blood flow, 153
- Kayser-Fleischer ring**
 - in Wilson disease, 779
- Keratan sulfate in cornea, 724**
 - in macular corneal dystrophy, 167
- Keratocytes**
 - corneal, 772, 776
- Kidney**
 - acute failure of, 252
 - acute glomerulonephritis, 211
 - amyloidosis of, 246
 - antiglomerular basement membrane nephritis, 190
 - blood reflow after temporary ischemia, 153
 - chronic glomerulonephritis, 228

CONTENTS FOR VOLUME 89, 1977

October 1977

- 1 Presentation of the Gold Headed Cane to Dr. Thomas DeArmen Kinney: March 14, 1977
Patrick J. Fitzgerald and Donald B. Hackel
- 13 Structural Changes Within the Media of Coronary Arteries Related to Intimal Thickening
John D. Hartman
- 35 Ultrastructural Basis of the Vasculopathy In and Around Brain Tuberculomas: Possible Significance of Altered Basement Membrane
Darab K. Dastur and Usha P. Dave
- 51 Myocardial Changes in Malignant Hyperthermia
John J. Fenoglio, Jr., and Nelson S. Irey
- 59 Sequential Morphologic Alterations in the Bronchial Epithelium of Syrian Golden Hamsters During N-Nitrosomorpholine-Induced Pulmonary Tumorigenesis
Hildegard Reznik-Schüller
- 67 Ethanol—Its Nephrotoxic Effect in the Rat
David H. Van Thiel, William D. Williams, Jr., Judith S. Gavalier, Joanna M. Little, Larry W. Estes, and Bruce S. Rabin
- 85 Ultrastructure of the Degradation of Erythrocytes by Thyroid Epithelial Cells *In Vivo*
Joseph D. Zeligs
- 105 Ultrastructural Appearance and Morphogenesis of Renal Glomerular Hematoxylin Bodies
Arthur H. Cohen and Luciano Zamboni
- 119 Effect of Polychlorinated Biphenyl (PCB) on the Thyroid Gland of Rats: Ultrastructural and Biochemical Investigations
William T. Collins, Jr., Charles C. Capen, Louis Kasza, Celester Carter, and Robert E. Dailey
- 137 Interaction of Dichloromethylene Diphosphonate and Vitamin D on Bone of Thyroparathyroidectomized Rats
Steven E. Weisbrode, Charles C. Capen, and Charles B. Pendley II
- 153 Glomerular Mesangial and Endothelial Cell Swelling Following Temporary Renal Ischemia and Its Role in the No-Reflow Phenomenon
William H. Johnston and Harrison Latta
- 167 Macular Corneal Dystrophy: Studies of Sulfated Glycosaminoglycans in Corneal Explant and Confluent Stromal Cell Cultures
Gordon K. Klintworth and Clayton F. Smith
- 183 TEACHING MONOGRAPH: Renal Disease
Michael Kashgarian, John P. Hayslett, and Benjamin H. Spargo
- 273 Animal Model of Human Disease: Pulmonary Tuberculosis
D. W. Smith and G. E. Harding

November 1977

- 277 Endothelial Proliferation in Inflammation. I. Autoradiographic Studies Following Thermal Injury to the Skin of Normal Rats
Milton M. Sholley, Tito Cavallo, and Ramzi S. Cotran
- 297 Cytologic Features of Harding-Passey Melanoma Following Different Regimes of Colchicine Treatment
Kenneth R. Loader and Edward J. H. Nathaniel
- 313 Endothelial Cell Morphology in Areas of *In Vivo* Evans Blue Uptake in the Aorta of Young Pigs. II. Ultrastructure of the Intima in Areas of Differing Permeability to Proteins
R. G. Gerrity, Mary Richardson, J. B. Somer, F. P. Bell, and C. J. Schwartz
- 335 The Structure of Mononuclear Phagocytes Differentiating *In Vivo*. III. The Effect of Particulate Foreign Substances
R. D. Goldner and D. O. Adams
- 351 Profile of Intracytoplasmic Lysozyme in Normal Tissues, Myeloproliferative Disorders, Hairy Cell Leukemia, and Other Pathologic Processes: An Immunoperoxidase Study of Paraffin Sections and Smears
Geraldine S. Pinkus and Jonathan W. Said
- 367 Radiosensitivity of T and B Lymphocytes. V. Effects of Whole-Body Irradiation on Numbers of Recirculating T Cells and Sensitization to Primary Skin Grafts in Mice
Robert E. Anderson and Wilbur L. Williams
- 379 Differences in Growth of Transplants of Liver, Liver Hyperplastic Nodules, and Hepatocellular Carcinomas in the Mammary Fat Pad
Gary M. Williams, Marianne Klaiber, and Emmanuel Farber
- 391 Antropyloric G-Cell Hyperplasia in Hypercalcemic Rabbits Bearing the VX₂ Carcinoma
Y. Dayal, E. F. Voelkel, A. H. Tashjian, Jr., R. A. DeLellis, and H. J. Wolfe
- SYMPOSIUM: Preneoplasia
- 402 Natural History of Neoplasia: Newer Insights Into an Old Problem
Henry C. Pitot
- 413 Considerations on the Preneoplastic Lesions of the Mammary Gland
Pietro M. Gullino
- 431 The Pathogenesis of Bladder Cancer
G. H. Friedell, J. B. Jacobs, G. K. Nagy, and S. M. Cohen
- 443 On the Causes of Melanomas
James J. Nordlund and Aaron B. Lerner
- 449 Differentiation in Human Myeloblastic Leukemia Studied in Cell Culture
E. A. McCulloch, R. Buick, S. Lan, and J. E. Till
- 459 Preleukemia: Cytogenetic Clues in Some Confusing Disorders
Peter C. Nowell
- 477 Newer Insights Into the Pathogenesis of Liver Cancer
Emmanuel Farber, Dennis Solt, Ross Cameron, Brian Laishes, Katsuhiro Ogawa, and Alan Medline
- 483 REVIEW ARTICLE: Cellular Aging—Clonal Senescence (Part I)
Cellular Aging—Postreplicative Cells (Part II)
George M. Martin
- 531 Animal Model of Human Disease: Pseudohyperparathyroidism
John T. Yarrington, Walt Hoffman, and Dennis Macy

December 1977

- 535 Thomas DeArman Kinney, MD, 1909-1977
Nathan Kaufman
- 541 The Effect of Chronic Hypoxemia on Regional Myocardial Blood Flow in the Conscious Dog After Acute Coronary Artery Occlusion
Sanford P. Bishop, Francis C. White, and Colin M. Bloor
- 555 Immunohistochemical and Ultrastructural Analysis of Medullary Carcinoma of the Thyroid in Relation to Hormone Production
Toru Kameya, Yukio Shimosato, Isamu Adachi, Kaoru Abe, Nabukatsu Kasai, Kazumoto Kimura, and Kensuke Baba
- 575 Left Atrial Ultrastructure in Mitral Valvular Disease
Klaus-Ulrich Thiedemann and Victor J. Ferrans
- 605 Age-Associated Glycopeptide Pigment in Human Costal Cartilage
J. K. van der Korst, F. L. H. Willekens, G. W. Lansink, and A. M. A. Henrichs
- 621 The Skin Biopsy in the Diagnosis of Acute Graft-Versus-Host Disease in Man
George E. Sale, Kenneth G. Lerner, Edward A. Barker, Howard M. Shulman, and E. Donnell Thomas
- 637 Diffuse Alveolar Damage in Cats Induced by Nitrogen Dioxide or Feline Calicivirus
John M. Langloss, Edward A. Hoover, and Donald E. Kahn
- 649 Newcastle Disease as a Model for Paramyxovirus-Induced Neurologic Syndromes. II. Detailed Characterization of the Encephalitis
Sharon P. Wilczynski, Margery L. Cook, and Jack G. Stevens

SYMPOSIUM: The Stability of the Neoplastic State

- 668 Introduction
Henry C. Pitot
- 671 Reversible Suppression of Malignancy and Differentiation of Melanoma Cells
Selma Silagi
- 685 Chimeric Mice Derived From Normal Embryos Injected With Teratocarcinoma Cells
Michael W. McBurney
- 687 Reversal of the Neoplastic State in Plants
Frederick Metns, Jr.
- 703 The Stability of Events in the Natural History of Neoplasia
Henry C. Pitot
- 717 REVIEW ARTICLE: The Cornea—Structure and Macromolecules in Health and Disease
Gordon K. Klintworth
- 809 Animal Model of Human Disease: DiGeorge Syndrome: Congenital Thymic Hypoplasia
M. Eric Gershwin

813 Index of Subjects, Volume 89

818 Index of Authors, Volume 89

HANDBOOK: ANIMAL MODELS
OF HUMAN DISEASE

Reprints of the Animal Models of Human Disease published in *The American Journal of Pathology*, plus others not published in the Journal, are collected periodically in the *Handbook: Animal Models of Human Disease*. Price of the first six fascicles of one hundred sixty Models (plus Index) complete with binder is \$18.00. Price of each unbound fascicle is \$3.00. Make checks payable to UAREP and mail to:

Registry of Comparative Pathology
Armed Forces Institute of Pathology
Washington, DC 20306
